

Drill

Connect:

```
/opt/mapr/drill/drill-1.15.0/bin/drill-localhost -n username
```

Select data from hive:

```
select * from hive.'transfers' where amount < 5000 limit 10;
```

Select data from mysql:

```
select * from mysql.test.'account_owners' limit 10;
```

Select data from hbase table:

```
select row_key, CONVERT_FROM(cf1['name'], 'UTF8') from dfs.'/user/xyz/hbase-table' limit 10;
```

Select data from csv file (must have an extension):

```
select columns[3] from dfs.root.'/user/xyz/transfers.csv' limit 10;
```

Select data from parquet file (no extension necessary, can read columns):

```
select * from dfs.root.'/user/xyz/parquet_file' limit 10;
```
